Quality and Compliance Director Medicinal products, combination products and devices.

Lead and shape the future of Navamedic's new Quality and Compliance Division.

Navamedic is entering an exciting phase of growth, acquiring ownership of products with global market potential. To support this expansion, they are seeking an experienced and visionary leader to head and develop their new Quality and Compliance division.

In this role, you will take on full responsibility for all quality, environmental management systems, and QA/QC activities across the company. Your mission will be to ensure that these functions run optimally, efficiently, and in a way that adds significant value to the organization

The ideal candidate will bring several years of experience in compliance and quality systems within the pharmaceutical and medical device industry, having held leadership positions in this field. Success in this role requires a passion for leading teams based on trust and clear goals, while being attentive and ready to step in with support when needed.

About the company:

As a Nordic pharma company with a footprint in Northern Europe, Navamedic is a reliable supplier of medicinal products, medical devices, medical nutrition, and high-quality consumer health products to hospitals and pharmacies. Navamedic collaborates with distributors and partners to expand into new markets. All the manufacturing is outsourced. Today, the company has approximately 40 employees and has presence in 5 markets.
