

Would you like to join a professional and strong team in a fast-growing company?

As a Nordic pharma company with a footprint in Northern Europe, Navamedic is a reliable supplier of medicinal products, medical devices, medical nutrition, and high-quality consumer health products to hospitals and pharmacies. Navamedic collaborates with distributors and partners to expand into new markets. Our main therapeutic areas are obesity, Parkinson's disease, antibiotics, addiction therapy and consumer health products. Our portfolio is continuously growing with exciting and unique products. The head office is located in Oslo and the company has approximately 43 employees spread across several territories.

Do you have pharmacovigilance and safety expertise in pharma industry and want to join a company in growth and development? We have a new position available for leading and shape the future of Navamedic's safety operations.

As our new **Senior Safety Manager** at Navamedic, you will have a unique opportunity to work at a Norwegian headquarter with international partners across a wide range of products and categories. You will play a key role in ensuring the safety and compliance of our products across multiple markets. You will be responsible for overseeing all pharmacovigilance and safety activities, ensuring compliance with regulatory requirements, and contributing to our mission of delivering high-quality, safe products to patients and healthcare professionals. At Navamedic, we are committed to improving health and quality of life. As part of our team, you will have the opportunity to make a meaningful impact in the healthcare industry, work with innovative products, and collaborate with talented professionals.

Our portfolio is continuously growing with exciting and unique products.

Key Responsibilities

- Lead and manage pharmacovigilance and safety operations for all Navamedic products
- Provide strategic input, expert advice and guidance on safety-related matters
- Pharmacovigilance responsibilities for medicinal products where Navamedic holds the marketing authorisation
- Local safety operations for products for which Navamedic serves as local representative/distributor for partners
- Host audits and inspections from partners and authorities
- Audit of Navamedic partners, responsible for GVP self-inspections
- Support PV system development and maintenance, compliance with SOPs
- Establish, review and maintain SDEAs relevant partners

- PV training and awareness initiatives

Key Requirements

- Master of Science in Pharmacy or equivalent academic degree in life science
- Solid working experience in the pharmaceutical industry
- At least 5 years of experience in pharmacovigilance and safety work within the pharmaceutical industry or regulatory authorities

Personal skills and experience

- Strong commercial understanding with a strategic and business-oriented mindset, while maintaining product safety integrity
- Ensure optimal communication with external partners and ability to collaborate effectively with various functions and levels within the organization, including management
- Proficient in project management; experience managing multiple responsibilities with minimal direction
- Excellent written and verbal communication skills, with strong presentation abilities
- Fluent in English and a Nordic language, both written and spoken
- Preferred location for the right candidate - Oslo region

Navamedic offers

- You will be a part of a Norwegian headoffice in the pharmaceutical industry
- A flat structure and a high degree of autonomy in the position
- Being a part of a professionally strong Safety and Regulatory team (5 persons)
- Office in central Oslo, Solli plass (access to bus, tram and train)
